Bugfixes: In versions earlier than 1.1.61, it is possible to die when your health is below 50% when someone in the guild gives you an invisibility potion. This is caused by the fact that the invisibility function is not available to the client, and therefore you can't get the percentage to be lower than 50%. This is fixed in version 1.1.61. The horse you ride while you are under a large amount of buff stacks such as Potion of Weightlessness/Potion of 82157476af
