The user-friendly Calculator app provides an easy way for doing calculations of any kind. It is a powerful calculator application that features many arithmetic operations such as addition, subtraction, multiply, divide, fractions, square root, percent and one more divide to X. The application allows the user to define decimal and thousand separator, select the units and position of the result and define the hotkeys to help them to make calculations faster and more accurately. With just a few clicks, the app lets you define the desired font and background color. You can set the decimal and thousand separator, the output units and position and finally adjust the hotkeys. You can also copy the result to the clipboard, make a round or square root of fractions, calculate the total in either amount or percentages and perform basic calculations like factorial, reciprocals, fraction and trigonometric functions. This application allows you to make money calculations with ease and allows you to easily design and decorate your documents. Key Features: ?Add, Subtract, Divide, Multiply, Square Root, Percent, One More Divide to X, Complex Operators ?Decimal and Thousand Separators, Text, Memory, Fraction and Table Inputs ?Positions of Total and Decimal/Thousand Separators, Currency, Percent, Fractions, Number System ?Font, Scale, Hotkey Settings, Background, Tooltip, Copy to Clipboard, Calculator Operations to Clipboard ?Text and Decimal Edit/Delete and Convert to Fractions, Find and Replace, Macro, Macro Scratchpad ?Decimal and Thousand Separator, Percent, Fractions, Number System, Currency, Text and Memory ?Grid, Units and Positions, Text and Decimal Edit, Scratchpad ?Fractions, Two Digit, Memory ?Customization, Units, Multiplier, Text Size, Minimum and Maximum Values, Precision, Pre-Defined Constants ?Input Tools, Debug, Copy to Clipboard, Copy and Paste from Clipboard, Fractions, Two Digit ?Command History, Tooltips, Clear History ?Help, About ?Bookmark, Scale, Hotkeys, Calculation options, Clear Input, Undo and Repeat More Info: CALCULATOR-7 is the official version of the Free Pascal Calculator.
